Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: in combination with other limitations of the claims, the cited prior arts fail to teach a means for ensuring that each finite state machine allows sufficient time to elapse after the computational logic circuit associated with that finite state machine has obtained input data that all signals generated within such computational logic circuit in response to such input data have propagated through such computational logic circuit before communication is permitted to occur from such computational logic circuit to a subsequent computational logic circuit., as required by claims 1 and 5.

2. Claims 1-5 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
